## Now our favorite degreaser

ALSO COMES IN A CONCENTRATE FOR A LOWER USE COST OPTION

## Effective degreaser, made safer.\*

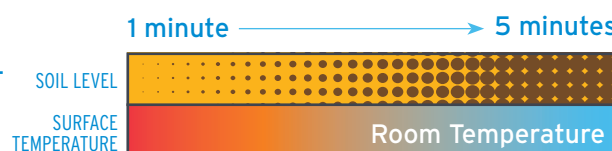

### Greaselift® outstrips the competition.

- Uniquely formulated to penetrate under grease and lift it up from the surface, unlike traditional degreasers that eat away at grease from the top down
- As effective as corrosive degreasers and faster than other non-PPE degreasers
- Safe for use on aluminum

\*When compared with caustic degreasers, Greaselift® is non-corrosive and less irritating

### Three easy steps to clean:

1. Spray onto surface  
*(most effective on surfaces that are warmed to 120° - 130°F / 49° - 54°C)*
2. Allow Greaselift® to sit for **1 - 5 minutes**  
*(it is recommended to spray down all surfaces, then return to wipe down)*
3. Wipe off product and rinse

Available in ready-to-use and dispensable concentrate.
